

## Success Story under “Pradhan Mantri Matru Vandana Yojana”

I, Mrs. Mamta Devi a housewife from village Lakdolu PO. Mehla Tehsil Chamba district Chamba. My husband is a daily wage worker and farmer. I also contributed with him in his work before my pregnancy. As I came to know about my pregnancy I felt the financial burden due to poor financial condition . It was my first pregnancy. Then I came to know about the Pradhan Mantri Matru Vandana Yojana from the AWW of my village which has cash incentives of Rs. 5000/- under the scheme. Then I enrolled myself in Anganwari Centre and after registration in AWC I received Rs. 1000/- as a first installment which encouraged me for ANC only after which Second installment is paid. After completing six months of LMP I went for ANC Check-up and after ANC I got my second installment of Rs. 2000/- which helped me to take adequate rest and nutrition during pregnancy. After delivery and complete vaccination of child for first four months I applied for third installment of Rs. 2000/- and received it.

Now I am having a healthy child and very thankful to the government for running such scheme which is helping other women like me. Now I am helping and telling others about the scheme who are in turn benefitted.

There are many more such beneficiaries who are benefitted under the scheme and are really grateful to government for providing such benefits which make their life simple.
